RE: Committee on Energy and Commerce – Investigation of U.S. Food Safety

Dear Chairmen Dingell and Stupak:

This letter together with the enclosed information in Exhibit 1 is intended to supplement our response of May 22, 2008 to your request for information relating to microbiological and chemical contamination in food. As was the case with our original submission, the information contained in Exhibit 1 is considered by Hershey to be confidential and is intended to provide the Committee with an understanding of current practices and experience of Hershey as part of the Committee's evaluation of the safety of the food supply in the United States. We trust that the Committee and the Staff will treat this information in a confidential manner.

Exhibit 1 to our response dated May 22, 2008 was responsive to Question 1 of your request and included a list of food recalls occurring since January 1, 2000 that involved potential microbiological or chemical contamination of products. The information contained in this supplemental response includes incidents that involved circumstances other than microbiological or chemical contamination of products.

If you have any questions, please feel to contact me at 717-534-4607. Thank you.

Sincerely,

Donald A. Mastrorocco, Jr.
